

Glowing input highlight

Here is how to make a glowing text input. It glows when focused

CSS:

```
input[type=text], textarea {  
-webkit-transition: all 0.30s ease-in-out;  
-moz-transition: all 0.30s ease-in-out;  
-ms-transition: all 0.30s ease-in-out;  
-o-transition: all 0.30s ease-in-out;  
outline: none;  
padding: 3px 0px 3px 3px;  
margin: 5px 1px 3px 0px;  
border: 1px solid #DDDDDD;  
  
input[type=text]:focus, textarea:focus {  
box-shadow: 0 0 5px rgba(81, 203, 238, 1);  
padding: 3px 0px 3px 3px;  
margin: 5px 1px 3px 0px;  
border: 1px solid rgba(81, 203, 238, 1);  
}
```
