

PHP datetime

```
$EndDate = date_create('%MYSQL DATETIME FORMAT%');
date_add($EndDate, new DateInterval('P7D')); //Add 7 days
$Now = date_create(date('Y-m-d H:i:s'));
// $DiffDate = date_diff($Now, $EndDate); //Returns larger-than-zero integer
// echo $DiffDate->format('%d');
if ($EndDate > $Now) {
    $Larger = true;
} else {
    $Larger = false;
}
```
