

Progresbar on cp and mv commands

```
wget http://ftp.gnu.org/gnu/coreutils/coreutils-8.21.tar.xz
tar xvJf coreutils-8.21.tar.xz
cd coreutils-8.21/
wget
https://raw.githubusercontent.com/atdt/advcpmv/master/advcpmv-0.5-8.21.patch
patch -p1 -i advcpmv-0.5-8.21.patch
./configure
make
```

You might get the following error, while running “./configure” command.

```
checking whether mknod can create fifo without root privileges... configure:
error: in `/home/tecmint/coreutils-8.21':
configure: error: you should not run configure as root (set
FORCE_UNSAFE_CONFIGURE=1 in environment to bypass this check)
See `config.log' for more details
```

Run the following command on the terminal to fix that error and run the “./configure” command again.

```
export FORCE_UNSAFE_CONFIGURE=1
```

Compiled files are in src directory
