Mount SMB/CIFS from shell

Install cifs-utils

```
sudo apt-get install cifs-utils
```

Mount share

```
sudo  mount -t cifs -o username=<usr>,password=<pwd>,uid=1000,gid=1000
//server/share /mnt_folder
```

Or if you are using AD to authenticate

```
sudo  mount -t cifs -o
username=<usr>,password=<pwd>,domain=<CONTOSO>,uid=1000,gid=1000
//server/share /mnt_folder
```
