

.bashrc up

To cd up a certain number of times, add this to your .bashrc file

```
up() {
    local d=""
    local limit="$1"
    if [ -z "$limit" ] || [ "$limit" -le 0 ]; then
        limit=1
    fi

    for ((i=1;i<=limit;i++)); do
        d="$d"
    done

    if ! cd "$d"; then
        echo "Path shallower than $limit";
    fi
}
```
