To turn off ads and offers, open Options > Preferences > Advanced. Here you'll find a large list of flags for the app and a filter box. Search for and disable the following flags:

- offers.left\_rail\_offer\_enabled/left\_rail\_offer
- gui.show\_plus\_upsell
- offers.sponsored\_torrent\_offer\_enabled/sponsored\_torrent\_offer\_enabled
- bt.enable\_pulse
- gui.show\_notorrents\_node
- offers.content\_offer\_autoexec
