

Check if windows program is running

```
@echo off
SET IMA=0
tasklist /FI "IMAGENAME eq APP Executable.exe" /FO csv > c:\sched\csv.tmp
FOR /F "usebackq tokens=1 delims=" %%A IN (csv.tmp) DO (
    if %%A == "APP Executable.exe" (
        SET IMA=1
    )
)
IF %IMA% == 1 (
    if not exist c:\sched\notified (
        rem Do something
        touch c:\sched\notified
    )
    del c:\sched\notified_E
) else (
    if not exist c:\sched\notified_E (
        rem Do something
        touch c:\sched\notified_E
    )
    del c:\sched\notified
)

:end
del c:\sched\csv.tmp
```
