

PHP datetime

```
$EndDate = date_create('%MYSQL DATETIME FORMAT%');  
date_add($EndDate,new DateInterval('P7D')); //Add 7 days  
$Now = date_create(date('Y-m-d H:i:s'));  
//$DiffDate = date_diff($Now,$EndDate); //Returns larger-than-zero integer  
//echo $DiffDate->format('%d');  
if ($EndDate>$Now) {  
    $Larger=true;  
} else {  
    $Larger=false;  
}
```
